

Good work in the steelworks – for 60 years

Client / Site:

ArcelorMittal Bremen GmbH,
Bremen

Timeframe:

Since 1954

KAEFER services

- > Insulation of pipes, vessels and boilers
- > Structural works and complex outfitting
- > Passive fire protection
- > Heating, ventilation, air-conditioning

When ArcelorMittal Bremen gave KAEFER its first job the date on the order form was 1954 and Germany won the football World Cup in Bern for the first time. A lot has changed since then, but not the working relationship between ArcelorMittal Bremen and KAEFER. A team of on-site technicians from KAEFER is permanently on duty. The range of services carried out by KAEFER for ArcelorMittal Bremen has expanded continuously from control panels to blast furnaces. Many individual ideas and solutions have been developed over the years, which KAEFER has put into practice flexibly and innovatively. This commitment has paid off for both sides: KAEFER is proud to be on the list of top suppliers to ArcelorMittal Bremen.

> Heat insulation

> Cold insulation

> Noise protection

> Fire protection

> Scaffolding

Scope of work

- > KAEFER client for more than 60 years
